REMARKS: Purpose and content of the proposed Defense directive appear completely satisfactory, assuming that [redacted] will lay on further detailed arrangements by which the appropriate word will get from the last distribution point of this directive to the guy who actually does the work. I suggest that coordination with JSPD is unnecessary since, under current Defense instructions and correspondence with us, detailed arrangements for this kind of support are made

REMARKS: This looks OK. However

I would appreciate it if you would coordinate this with DIA-S in order to determine what Agency policy should be. It might be necessary to consult
